### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-79

Having received a request from the Ministry of Government Services that an undertaking, namely:

The activities involved in the implementation of the Ministry of Northern Development and Mines Head Office plus offices of the Mining, Health and Safety Branch of the Ministry of Labour together in a single office facility undertaking at a site referred to as Lots 72, 73, 74, 75 RP 3-5 in the Township of McKim now in the City of Sudbury be exempt from the application of the Act pursuant to section 29, and

Having been advised by the Ministry of Government Services that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be interfered with and damaged by the undue delay and expense required to prepare an environmental assessment for an activity for which adverse environmental impacts are not anticipated.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proposed undertaking will have no significant adverse effects on the environment.

This exemption is subject to the following terms and conditions:

1. ## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 74/88.

Exemption—Victoria Hospital Corporation—VHC-1.

Made—January 21st, 1988.

Approved—January 21st, 1988.

Filed—February 3rd, 1988.

ORDER MADE UNDER THE  
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—VICTORIA HOSPITAL  
CORPORATION—VHC-1

Having received a request from Victoria Hospital Corporation that an amendment to an undertaking, an Energy from Waste Facility on part of the Hospital's Westminster Campus approved under the *Consolidated Hearings Act* by a decision of a Joint Board dated October 18th, 1983, by:

- (a) amending the wording of clause 7 (a) on page 14 of Schedule A to the Joint Board's Decision by deleting the last five lines of the clause and substituting: "will be analyzed for concentrations of the following heavy metals: antimony, cadmium, chromium, copper, iron, lead, manganese, nickel and vanadium", and, if both the use of teflon filters is adopted as a standard sampling technique for use in high volume samplers and standard analytical techniques are adopted for analyzing beryllium, lithium, tin, titanium or zinc from these filters by the Ministry of the Environment, then the relevant metals will be added to the high volume sampling program"; and
- (b) amending the wording of subclause 7 (b) (ii) on page 15 of Schedule A to the Joint Board Decision by deleting the last line of the subclause and substituting the following: "monthly for total weight and the heavy metals listed in Condition No. 5 (a) except for mercury";

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Vice President, Planning and Development, Victoria Hospital Corporation, that:

- A. Clause (a) of Condition No. 7 to an approval granted by a decision of the Joint Board dated October 18, 1983 requires the Victoria Hospital Corporation (the Hospital) to carry out ambient air sampling, commencing at least one year prior to completion of construction using four high volume samplers at certain locations surrounding the plant site as set out in the condition;
- B. Seventeen metals were to be analyzed from the samples collected. They were beryllium, mercury, arsenic, cadmium, chromium, lead, zinc, manganese, iron, copper, nickel, antimony, vanadium, tin, titanium, lithium and selenium;
- C. Subclause (b) (ii) of Condition No. 7 is intended to require that the same metals noted in Paragraph B will be analyzed for in

the material collected in the dustfall jars which are the subject-matter of this subclause:

- D. The Ministry of the Environment is carrying out the ambient air sampling required by Condition No. 7 on behalf of the Hospital; and
- E. Through discussions among the full time parties to the hearing associated with the 1983 Joint Board decision it has been agreed that analyses for certain heavy metals would not result in meaningful data using presently approved standard methods of sample collection using high volume samplers or dustfall jars and standard laboratory analysis procedures. Specifically, meaningful results are not expected for arsenic, beryllium, lithium, mercury, selenium, tin, titanium and zinc from the regular high volume sampler using glass fibre filters. As well, meaningful results are not expected for mercury from the dustfall jar sampler.

And that if the amendment to the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Needless expense will be incurred by the public in carrying out tests which will not produce accurate and meaningful results; and
- B. The public could be misled by the reporting of analytical results that were not accurate or meaningful.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the amendment to the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the amendment to the undertaking is exempt from the application of the Act for the following reasons:

- A. Consultation with the full time parties to the hearing associated with the 1983 Joint Board decision resulted in agreement to the proposed amendments to Condition No. 7 as noted previously.
- B. This consultation included the provision of independent legal and technical advice for the Citizen's Coalition to Maintain the Environment to assess the amendments proposed.
- C. The Ministry of the Environment has undertaken to carry out a research program

using teflon filters in the high volume sampler device which may lead to standard procedures being established for sample collection and laboratory analysis of beryllium, lithium, tin, titanium and zinc using this procedure. If the use of teflon filters and reliable laboratory analysis procedures are adopted as standard sampling and analytical techniques by the Minister of the Environment for any of these metals, the sampling program will be expanded to include them.

D. The Ministry of the Environment has undertaken to carry out mercury sampling and analysis in the ambient air using a mobile air quality laboratory van equipped for this purpose.

E. All of the full time parties which took part in the hearing leading to the Joint Board decision of October 18, 1983 do not object to an exemption being granted pursuant to section 29 of the *Environmental Assessment Act* for the undertaking to amend Condition No. 7.

### ENVIRONMENTAL ASSESSMENT ACT

#### NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT AND NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment Class Document for the Construction of New or the Expansion of Existing Commuter Facilities

Proponent: GO Transit

EA File No. GT-AA-03

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above Environmental Assessment and/or its Review, provided for in the *Notice of Completion of Environmental Assessment Review*, dated April 15, 1987, expired on May 18, 1987. I received no requirements for a hearing by that date. I do not consider it advisable to require a hearing.

#### ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

Having considered the purpose of the Act, the Environmental Assessment, the Review and the submissions received, I am of the opinion that the Environmental Assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should be given, and pursuant to Section 9 of the Act, I accept the Environmental Assessment.

#### APPROVAL OF THE UNDERTAKING

Under Section 13 of the Act, before the decision on approval to proceed with the undertaking can be made, the proponent and anyone who has made a submission has the opportunity to require a hearing by the Environmental Assessment Board.

The proponent and the persons who have made submissions have indicated that they do not require a hearing.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as accepted, and the submissions received, I hereby give approval to proceed with the undertaking subject to the following terms and conditions:

- (1) Subject to Condition 2, the proponent shall comply with all the provisions of the Environmental Assessment which are herein incorporated by reference.
- (2) The proponent shall revise the text of the Environmental Assessment in accordance with the changes set out in the attached Schedule A.
- (3) GO Transit shall carry out a re-evaluation of the Class EA covered by this approval and advise the Minister of the Environment of the results of this re-evaluation by December 31, 1991. At that time, GO Transit shall specify the manner in which it proposes to continue to ensure that the purposes of the *Environmental Assessment Act* are achieved for projects within the Class.
- (4) This approval shall terminate on December 31, 1992 or such later date as the Minister may specify by notice in writing to the proponent and in THE ONTARIO GAZETTE.

- 1. The Class Environmental Assessment document specifies a planning procedure which GO Transit indicates will ensure that environmental effects are considered and adverse environmental effects mitigated when it plans or implements projects within the Class. This planning procedure is the result of GO Transit's re-evaluation and revision of its four (B1-B4) Class Environmental Assessments, based on its experience following the approval of the undertakings described in these documents on April 2, 1981.
- 2. I have received only four submissions, none of which required a hearing, after giving the *Notice of Completion of Environmental Assessment Review* dated April 15, 1987.
- 3. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be required.

Dated at Toronto, this 5th day of February, 1988.

JIM BRADLEY,  
Minister of the Environment,

- B. Lack of disposal options for the total wastes will result in significant environmental effects and risks to human health.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the *Environmental Assessment Act*;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the *Environmental Assessment Act* for the following reasons:

- A. The undertaking is clearly an interim measure for which there is no other reasonable waste management alternative available within the necessary time frame.
- B. The County of Essex is currently undertaking a waste management master plan in accordance with the *Environmental Assessment Act*. It is the intention of the County to implement a long term waste management system in accordance with the master plan. The county intends to implement the plan by December 31, 1992.
- C. The undertaking was recommended after an examination of impacts to the environment of both alternatives to and alternative methods.
- D. Public meetings were held where the modified use of Essex County Landfill No. 3 was discussed, the preferred concept was presented, along with the regulatory processes that must be followed. Concerns with the current operations of Essex County Landfill No. 3 were also discussed at those meetings and these are documented in the "Summary Technical Document" submitted by the County of Essex in support of the exemption request.
- E. The modified use of the Essex County Landfill No. 3 is subject to approval under the *Environmental Protection Act* and requires that a public hearing be held before the Environmental Assessment Board.

This exemption is subject to the following terms and conditions:

1. No waste shall be deposited at Essex County Landfill No. 3 Site after December 31, 1992 or above the contours described in any Certificate of Approval which is issued following the hearing mentioned in E above.
2. Within the interim period of time specified in Condition 1, the County shall file a report annually, on or before the anniversary date of this Order, with the Director, Environmental Assessment Branch, Ministry of the Environment, for filing with the Public Records kept under section 31 of the

*Environmental Assessment Act* by the Branch at the Ministry's head office located at 135 St. Clair Avenue West, Toronto, Ontario M4V 1P5. The annual reports will outline the County's progress in preparing and implementing a long term waste management master plan. O. Reg. 119/88.

## ASSESSMENT ACT

O. Reg. 127/88.

Equalization of Assessments Made Under

Section 63 of the Assessment Act.

Made—February 29th, 1988.

Filed—March 2nd, 1988.

### REGULATION MADE UNDER THE ASSESSMENT ACT

#### EQUALIZATION OF ASSESSMENTS MADE UNDER SECTION 63 OF THE ASSESSMENT ACT

1. The equalization of assessment made under the Act in each prescribed class of real property necessary in order to provide for each municipality specified in Schedule 1 to this Regulation, assessments of real property that, in accordance with section 63 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and in the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1987 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1987 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1987 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment of that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been levied for the year 1987 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipal-

ity for the year 1987 against the total assessment for that prescribed class of real property in that municipality.

2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1984, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.
3. The total assessment, including assessments made under section 32 or 33 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.
4.
